GINGER TURMERIC

Green Tea | Black Tea | Turmeric | Bael Nut | Ginger Pieces | Cornflower
Petals | Natural Flavors

Turmeric contains curcumin, a substance with powerful anti-inflammatory and antioxidant properties. Curcumin can suppress many molecules known to play major roles in inflammation.

Green tea is overflowing with antioxidants. These antioxidants also proactively protect cells from damage and have been shown to protect against bone loss, reducing the risk of fracture.

Ginger helps boost the digestive system, the first step in staying healthy! Drinking a cup of ginger tea before travelling can help prevent nausea and vomiting associated with motion sickness.
